

EPIC	USER STORY	ACCEPTANCE CRITERIA
As a Property Buyer, I want a Smart Land Verification and Encumbrance Verification platform so that I can verify land ownership, encumbrance details, and fraud risk before purchasing a property.	As a Property Buyer, I want to register and log in so that I can securely access the land verification platform.	• User can register successfully. • User can log in using email and password. • Invalid credentials show an error message. • Redirect to dashboard after successful login.
	As a Property Buyer, I want to reset my password so that I can regain access to my account.	• Forgot Password option available. • OTP/Email verification. • Password can be updated successfully.
As a Property Buyer, I want an AI-powered document analysis system so that I can automatically extract information from uploaded land documents.	As a Property Buyer, I want to upload EC, Sale Deed, or Patta documents so that I can verify their authenticity.	Ensure the Property Buyer is able to: • Upload PDF/JPG/PNG documents. • Validate supported file types. • Receive upload confirmation. • Start OCR processing.
	As a Property Buyer, I want OCR to extract document details so that I can review the extracted information.	Ensure the Property Buyer is able to: • Extract Owner Name. • Extract Survey Number. • Extract Area. • Extract Registration Date. • Display extracted details.
As a Property Buyer, I want to verify the legal status of a property so that I can avoid purchasing land with existing loans or legal disputes.	As a Property Buyer, I want to check the encumbrance details so that I can know whether the property has any active loan or legal issue.	Ensure the Property Buyer is able to: • View Loan Status. • View Encumbrance Status. • View Court Case Status. • Display legal verification result.
	As a Property Buyer, I want to compare uploaded document details with registered land records so that I can identify mismatched information.	Ensure the Property Buyer is able to: • Compare Owner Name. • Compare Survey Number. • Compare Area. • Display Match/Mismatch result.

As a Property Buyer, I want an AI-based fraud risk assessment system so that I can identify suspicious land documents before purchasing a property.	As a Property Buyer, I want to receive a fraud risk score so that I can make an informed purchase decision.	Ensure the Property Buyer is able to: • Generate fraud risk score. • Display Low, Medium, or High Risk. • Show AI recommendation. • Display verification status.
	As a Property Buyer, I want the system to detect inconsistencies in land documents so that I can identify potential fraud.	Ensure the Property Buyer is able to: • Identify mismatched records. • Detect duplicate records. • Display suspicious document alerts. • Recommend manual verification.
As a Property Buyer, I want to receive and manage verification reports so that I can keep proof of property verification.	As a Property Buyer, I want to download the verification report so that I can use it for future reference.	Ensure the Property Buyer is able to: • Generate PDF report. • Download verification report. • View report summary. • Print report.
	As a Property Buyer, I want to access my previous verification reports so that I can review them anytime.	Ensure the Property Buyer is able to: • View report history. • Search reports. • Open previous reports. • Download previous reports.
As an Administrator, I want an administration portal so that I can manage users, land records, and verification requests efficiently.	As an Administrator, I want to manage land records so that the database remains accurate and up to date.	Ensure the Administrator is able to: • Add land records. • Edit land records. • Delete land records. • Search land records.
	As an Administrator, I want to review verification requests so that I can monitor suspicious property verification cases.	Ensure the Administrator is able to: • View uploaded documents. • View verification reports. • Review high-risk cases. • Update verification status.
